

1. Attached
2. Attached
3. Attached (I did this project in my HW Project P1, I renamed the folder to P3 to hopefully not cause any confusion, it worked on my machine but if Vivado freaks out because of file path names let me know)
4. TXT dump and screenshots in zip
- 5.

Check	Student	Grader
Design compiles with no warnings or errors	☒	
Testbench is self checking	☒	
The code has sufficient comments	☒	
All required functions are tested and operate correctly	☒	
All source files are included in the project zip file	☒
